

## Senior .NET Developer

**Location:** Lieu Giai, Ba Dinh, Hanoi

**Contact:** Ms Diep ([bachdiep.nguyen@persolkelly.com](mailto:bachdiep.nguyen@persolkelly.com)/ 0379138113)

### About the role...

We're searching for a Senior .NET Developer with a proven track record of delivering high-quality code within agile teams. You will be responsible for delivering high-quality coding, based on the company and customers' needs while contributing ideas to improve processes and development practices. You will work closely with Global Development Leaders and help mentor colleagues and assist in performing code reviews. This role is available in Vietnam.

### What you'll be doing

- Analyze and develop web applications with high-quality code.
- Build large-scale API services and data integration as well as core, backend/frontend software components/modules, contributing to the technical and architectural roadmap of the platform.
- Analyze and improve the efficiency, scalability, and stability of various system resources by understanding and solving difficult production incidents across the technological stack.
- Research new technologies, and multitask on multiple web projects with other team members.
- Follow software development processes and coding conventions, using Scrum agile disciplines and principles.
- Assist the development team with Unit testing and Cross testing methodologies.
- Support Auto Scale Services, Analytics, Jobs, and more while also supporting, mentoring, and coordinating with other team members and clients.

### What you'll need

- A Bachelor's degree in Computer Science or a related field as well as 4+ years of experience as a developer.
- Experience in **C#, .NET Core, MS SQL, NoSQL DBS (e.g., MongoDB)**, containers (e.g., Docker, Helm, Kubernetes), **Microservices frameworks**, building large-scale systems, as well as deep experience with distributed systems architecture. Experience with Native Cloud Solution Architecture (Azure or AWS) is considered an advantage.
- Expert knowledge in **JavaScript /TypeScript** as well as at least 2 popular frameworks (Angular/React/Vue, etc.)
- Ability to self-manage, focus on business impact, analyze performance, and alleviate performance bottlenecks.

- Professional fluency in English is essential, both written and oral.
- A self-learner with strong attention to detail who is passionate about learning new technologies and has a track record of delivering commercially viable products.

Salary & Benefits:

**Salary & Benefits**

- Attractive salary (up to 40M gross)
- Insurance on full salary & health care package
- Nice office in the centre with good benefits, entertainment area with lockers, pingpong, canteen and sky garden
- Frequent team bonding activities and annual teambuilding
- Good opportunity and career growth
